Nevada Central Cancer Registry

Don Ariyakumar, M.S
Program Manager
• NCCR works on obtaining quality data to improve cancer related activities in the State of Nevada
The NCCR was established and is governed by Nevada Revised Statutes (NRS) 457 and Nevada Administrative Codes (NAC) 457
• Incidence-only: the number of new cancers in a defined population during a defined period, capturing diagnosis and first course of treatment.

• Population-based: collect and maintain information on all newly diagnosed cancer patients within a defined geographic area, allowing for calculation of incidence and mortality rates.
• Epidemiologists
• Medical Researchers
• Physicians
• Hospitals
• Cancer prevention
• Cancer control
Relocation/challenges

- Carson City, NV
- New Staff members
- Contract CTR
- New database

Achieve

- Quality audits
